

9024 Duck

Orange pediatric spinal board

FEATURES

Designed for immobilization and transport of children with height up to 120 cm. This spinal board has been produced with plastic material at high strength and studied paying particular attention to the problems connected to daily interventions. It has 4 holes for the quick and total fixing of the head immobilizer and 2 cavities where the board lays on the floor, when base is blocked in traditional way, that allow to avoid damages to the rip-off straps during the usage of the spinal board or its accommodation in the ambulance.

It has 10 handles for the transport.

It allows preliminary diagnostic under X-ray and it's available in 3 different colours: yellow, orange and blue.

It isn't supplied with belts.
