

16160/G Ergon Junior

Pediatric variable geometry comfort stretcher - yellow/blue

FEATURES

[Visit Ergon website](#)

The greatest product for the smallest patients

ERGON shares its advanced technology with the junior model. All benefits and main features of the adult stretcher are preserved in its Junior version.

The **Flexilock locking system** was moved from the centre to the side, in order to allow operations without invading the head space. The large blade allows for maximum comfort even to pediatric patients.
